The Fund will generate investment return whilst excluding companies on the Responsible Exclusions list. The exclusion criteria applied to generate this list, is detailed in the investment policy. If a bond in the Fund is downgraded below investment grade, the Fund can hold it for a maximum of three months. The Fund may use derivatives to • reduce risk or cost; or • generate additional capital or income with no, or an acceptably low, level of risk; or • manage the effect of currency exchange rates. The Fund may invest up to 20% of its assets in contingent convertible debt securities. The Fund is actively managed as the Investment Manager uses their expertise to select investments to achieve the Fund's objectives.
